

IGS Friends & Family Rate Info

EPC/IGS Friends & Family Rate

The Southwestern Ohio EPC can help you save money at home too! We would like to share the EPC/IGS Friends & Family Rate with you. This is a code that all EPC Members/Districts and their families may utilize to save money on Electricity & Natural Gas rates. **The code that districts and employees will use is EPC-Schools.** These offers are preferred variable rates that match our Friends and Family offers. We price them each month to beat the Utility Price to Compare and well below it as the current pricing is the lowest pricing available anywhere. It is also month-to-month, so **you can cancel at any time at no cost.** [Click here](#) to view a rate history where you will see how strong the friends and family offering has been!

If you are interested in enrolling, please follow the steps below. You will need copies of your utility bills before starting the enrollment process.

- Go to <https://www.igs.com/signup>
- Enter EPC-Schools in the “Enter Zip or invitation Code” box.
- A pop up will ask you for your zip code:
- Choose the plan(s) and hit the button “Add to Plan”. Once you have added your plan(s), go to checkout and enter your information to finalize the enrollment. (The first one is for Electricity, the second one is for Natural Gas.) You have to click on the box so it turns green. Then hit add to plan button.

Green Electricity

YOUR UTILITY: AES OHIO ⓘ

Green electricity is generated from 100% renewable sources like wind and solar from right here in the U.S. We purchase renewable energy credits (RECs) on your behalf that are verified and validated through tracking systems supported by the EPA. It's the same electricity that you're used to, just better for the planet!

Carbon-Neutral Natural Gas

YOUR UTILITY: CENTERPOINT ENERGY OHIO ⓘ

Our carbon-neutral natural gas product is an easy way to lessen your impact on the planet. Your natural gas usage is neutralized through carbon offset projects that protect our land and air, and reduce CO₂ in the atmosphere. These projects are verified through trusted programs like the Climate Action Reserve or Verra's Verified Carbon Standard (VSC) Program. Nothing about your energy use changes, just the impact you'll have!
